

PLASTIC CHANNEL & GRATING

B125

Technical sections of linear drain

length mm	width mm	height mm	vertical outlet
1000	130	105	3 x Ø 110
1000	130	55	3 x Ø 110

MAIN CHARACTERISTICS

- The drains are made of high-class material (polypropylene)
- Small weight makes transport and assembly of the drains easy
- Smooth surface provides high hydraulic properties
- High chemical resistance
- Non-soaking
- Drains connected with tongue and groove
- Grating screwed down (anti-theft)
- Correct assembly guarantees high load durability
- Highly aesthetic
- Load classes from A15 to C250

ADDITIONAL ACCESSORIES

- consolidated system drains
- full end drains
- drain end with place for a stub-pipe
- lower outlet
- s-bend

APPLICATION AREAS

Pedestrian and cyclist paths, garden, terraces, premises entrances
